HIMANSHU VISHWAKARMA

Senior AI Product Manager | CSPO | IIM Kozhikode

himanshu.me2011@gmail.com | +91-8130632869 | linkedin.com/in/hvishwkarma | Hyderabad, India

Senior AI Product Manager with **10+ years** leading 0-to-1 and growth-stage AI, SaaS, and EdTech products. Deep expertise in **LLMs, RAG architectures, agentic workflows, model lifecycle management, and AI evaluation**. Proven record shipping AI products at scale — reducing costs by up to **$1.5M annually**, driving **$3M+ incremental revenue**, and leading cross-functional teams of **50+**. Experienced in data governance, KPI frameworks, product roadmaps, CSPO-certified Scrum delivery, and translating complex business problems into production-ready AI solutions.

Core Competencies

AI & ML Product	LLMs (GPT-4, Gemini, Mistral), RAG Pipeline Design, LLM Fine-tuning, Prompt Engineering, Agentic Workflows, AI Evals, Model Lifecycle Management (Train/Validate/Deploy), OCR, NLP, Speech-to-Text, Ethical AI & Data Governance
Product Management	Product Strategy, 0-to-1 & Growth Products, PRD/BRD/FRD, OKRs, Roadmap Prioritization, Backlog Management, User Stories, A/B Testing, GTM, User Research, Product Analytics, KPI/Impact Measurement Frameworks
Agile & Delivery	CSPO (Certified Scrum Product Owner), Scrum, Kanban, Sprint Planning, Backlog Grooming, QA/UAT, Stakeholder Management, Cross-functional Leadership
Data & Tools	SQL, Python (pipeline scripting, prompt automation), Google Analytics, Tableau (reporting & dashboards), Mixpanel, Jira, Confluence, Trello, Figma, Miro, REST APIs
AI Platforms	Google Vertex AI, Gemini, OpenAI APIs, LangChain, AI Studio, Loveable, AWS (working knowledge)

Professional Experience

Senior AI Product Manager — Jan 2026 – Present

Covasant Technologies Pvt. Ltd. · Hyderabad, India

0-to-1 AI Attorney MVP for B2B US Clients

- Defined product vision, MVP scope, and success metrics for an AI-driven legal assistant platform, translating complex legal workflows into sprint-ready PRDs, user stories, and acceptance criteria.
- Drove model lifecycle decisions — from LLM selection and prompt engineering to evaluation benchmarks and deployment strategy — for a production-grade agentic application.
- Established data governance standards and ethical AI guardrails aligned with US compliance requirements.
- Led cross-functional alignment across engineering, legal SMEs, and design; set sprint cadence, stakeholder review forums, and iterative feedback loops.
- Applied CSPO-certified backlog ownership and Scrum ceremonies to roadmap prioritization, managing competing initiatives across a multi-disciplinary product squad.

Senior Product Manager — Apr 2024 – Jan 2026

Ajayvision Education Pvt. Ltd. · Noida, India

AI Product Leadership across 7+ Platforms (LMS, Assessment, Content, Commerce)

- **AI Classroom Ecosystem (LLMs, Gemini, Speech-to-Text, Python pipelines):** Led 0-to-1 design and rollout of a classroom content automation platform; reduced manual content effort by ∼70%, saved **$1.5M annually**, and scaled to **5,000+ active users**. Managed full model lifecycle: prompt design, pipeline architecture, evaluation, and continuous improvement cycles.
- **AI Assessment & Script Evaluation Engine (OCR, NLP, RAG, LLMs):** Led product development of an automated subjective evaluation system for UPSC and K-12; reduced manual evaluation workload by ∼50%, improved learner outcomes by ∼35%. Defined data quality standards and rubric-based scoring governance frameworks.
- **Revenue & Experimentation:** Designed and ran A/B experiments on subscription and premium placement flows, lifting conversions by 8–30% and driving **$3M incremental annual revenue**.
- Defined and maintained product roadmaps for 7+ platforms; translated 30+ business and UX requirements into prioritized backlogs, increasing feature iteration speed by 25%.
- Built Tableau-powered KPI and impact dashboards for leadership reporting; established OKR tracking, product health monitoring, and data-driven sprint planning cadence.
- Led org-wide AI adoption strategy, resulting in an AI-ready workforce and launch of three new revenue streams: Vision Publication, StudentEdge, and Vision AI India.

Product Manager Aug 2019 – Apr 2024

Ajayvision Education Pvt. Ltd. · Noida, India

Platform Ownership, LLM Prototyping, Analytics & Growth

- Took **StudentEdge K-12 LMS from MVP to full production in 6 months**; owned PnL, pricing, and monetization; acquired 5,000+ learners across 5 states via B2B school partnerships and B2C subscriptions.
- **Mistral 7B LLM Fine-tuning:** Led fine-tuning of Mistral 7B to build an offline domain query chatbot — establishing foundational AI capability deployed across the platform ecosystem. Defined knowledge indexing, grounding logic, and factual accuracy benchmarks.
- **AML Transaction Monitoring Platform:** Led end-to-end product design of an AML monitoring platform; defined risk detection workflows, alert scoring logic, sanctions/PEP screening, and investigator dashboards. Reduced false positives by 35–50% and improved investigation efficiency.
- Built cohort, funnel, and behavioural analytics dashboards (SQL + Tableau); reduced feature turnaround time by 25% through data-driven sprint planning.
- Ran 30+ user interviews and usability studies across 7 platforms; drove 30% engagement uplift and 60% improvement in lead conversions via SEO and digital acquisition strategy.
- Led cross-functional org of **50+** across engineering, UX, academics, marketing, and operations; aligned product strategy with business OKRs, enabling 3x regional expansion.
- Authored PRDs, user stories, led sprint planning, backlog grooming, QA/UAT cycles using Jira and Confluence, ensuring predictable, high-quality releases.

Business & Academic Coordinator Nov 2015 – Aug 2019

Ajayvision Education Pvt. Ltd. · Noida, India

- Designed KPI frameworks, evaluation models, and automated workflows across academic and operational functions; coordinated across academics, sales, and ops to improve delivery outcomes.

Design & Development Engineer Nov 2011 – Jun 2013

SD Engineers Tech Pvt. Ltd. · Faridabad, India

- Led 20-member team on robotic welding automation for Yamaha, Honda, and Maruti; reverse-engineered Japanese designs saving **$4M** on the Yamaha project; delivered $10M in OEM collaboration revenue (Maruti, Mahindra, Honda).

Key AI Product Highlights

AI Attorney MVP Covasant, 2026	Agentic AI platform for legal workflow automation (B2B, US). Defined model eval strategy, data governance, and RAG-based legal knowledge retrieval architecture.
AI Classroom Ecosystem Ajayvision, 2024	GPT-4 + Gemini + Speech-to-Text pipeline converting live lectures to MCQs, summaries, and personalised modules. Saved $1.5M/yr, 5,000+ users.
AI Assessment Engine Ajayvision, 2024	OCR + NLP + RAG pipeline for automated subjective script evaluation (UPSC, K-12). Rubric-based scoring, teacher dashboards, 50% workload reduction.
Mistral 7B RAG Chatbot Ajayvision, 2022	Fine-tuned Mistral 7B LLM for offline domain query; designed knowledge indexing, grounding logic, and factual accuracy evaluation benchmarks.
AML Monitoring Platform Ajayvision, 2023	Risk detection workflows, alert scoring, sanctions/PEP screening, case management dashboards. Reduced false positives by 35–50%.
AI Interview Platform Ajayvision, 2023	LLM + Speech-to-Text mock interview system for UPSC with real-time Q&A, rubric scoring, and personalised feedback.

Education

Executive Programme in Advanced Management 2023 – 2024

Indian Institute of Management (IIM), Kozhikode · General Management, Strategy, Leadership

B.Tech, Mechanical Engineering 2007 – 2011

Uttar Pradesh Technical University (UPTU) · Engineering
